

beam®

Natural Mobility and
Immersive Telepresence

Beam® puts you in the room with the people who matter most.

The Beam App

Expand Your Reach

Meet with remote clients, monitor overseas manufacturing, or consult with dispersed team members without traveling.

Stay Connected

Get to where you're needed, when you're needed, with a single click.

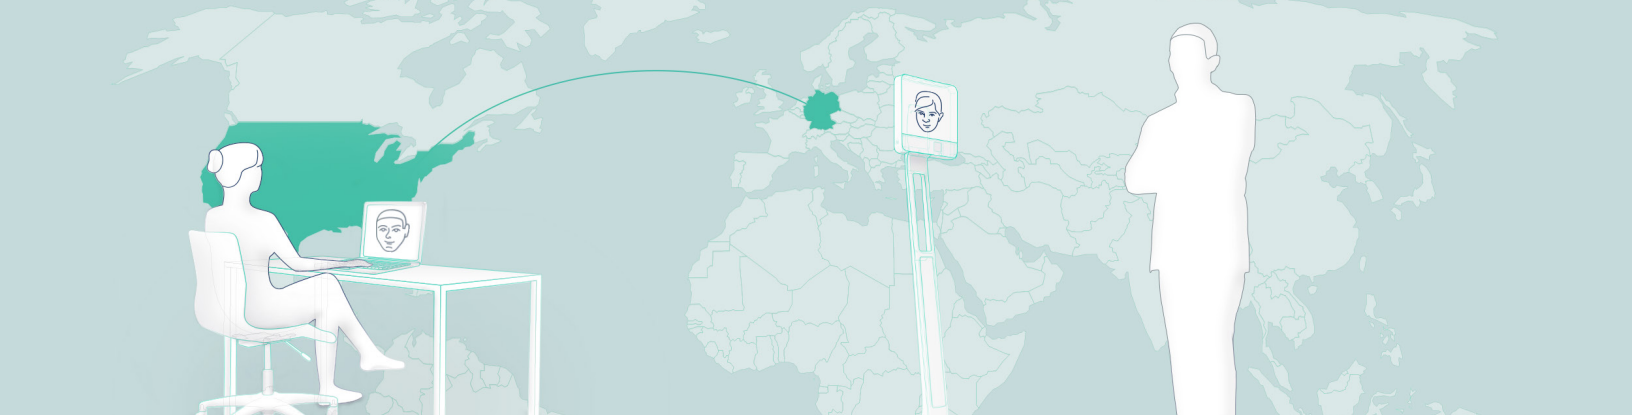

Leverage Remote Mobility

Break free from the conference room wall and benefit from face-to-face interactions without boundaries.

Interact Effectively

High-quality audio and video capabilities ensure that you'll get your point across, while allowing you to listen and read the room as if you were there.

Choose the Beam® that fits your needs.

Battery	Long-lasting lead-acid battery. Assisted-docking feature allows for effortless charging.	Up to 2 Hours	Up to 8 Hours
Screen Size	High-quality display brings you clearly into the room.	10 Inches	
WiFi	Dual-band 802.11 a/b/g/n wireless radio. Optional second radio combines with patented roaming algorithms to provide seamless WiFi connectivity. LTE availability via USB.*	1 Radio	2 Radios
Audio	Front-mounted speaker creates a lifelike human presence; high-quality microphone array ensures that you'll never miss a beat.	1 Speaker & 4 Microphones	
Video	High-resolution LCD flat-panel display makes face-to-face interactions a reality; two wide-angle HDR cameras allow you to survey the room with ease.	Enhanced Definition
